The relevant application form must be fully completed and scanned including the nomination form and sent by the application deadline to the email address: ioi.thailand@hotmail.com with submission emails marked Attention IOI Regional Ocean Governance Training in Hua Hin, Prachuap Khiri Khan, Thailand.

ACCREDITATION

Completion of the full course and fulfillment of the course work to the required standards will lead to a Certificate in Ocean Governance issued by the International Ocean Institute - Thailand (IOI - Thailand).

COURSE CONTENT

The course curriculum is divided into three main modules giving altogether a broad approach to the theme of the course.

Module 1: Global Ocean Governance Framework: set out the objectives of ocean governance and the linkages to socio-economic issues, integrated and ecosystem ocean governance, and resource exploitation. During this module the international and regional governance structures, conventions and tools are presented and discussed with special emphasis on the governance architecture provided through UNCLOS and its related instruments.

Module 2: Manage Our Relations with the Ocean in Southeast Asian and Indian Ocean Regions: covers traditional policy, legal and institutional tools of the Blue Economy and Blue Growth, focusing on science-management interface and bringing to the fore the use of state-of-the art technology in support of ocean governance. Tools, techniques and processes which support and inform decision making and policy

Action are presented, as are relevant case studies and best practices; hands-on practical exercises are provided.

Module 3: Conflict Management and Consensus Building: addresses those conflicting interests that can be a barrier to effective ocean governance and management and the mechanisms available for conflict prevention and management. During this part of the course, the UN system is presented as well as other mechanisms for high level negotiations, dispute settlement and the creation of consensus around common goals; case studies and stimulated negotiation sessions help give practical experience and topical relevance.

MAJOR TOPICS COVERED DURING THE PROGRAMME

The programme seeks to inform on core of a governance topics and emerging ocean issues of a global and regional nature such as regional nature such as:

- the major conventions and instruments regulating oceans and their sustainable use: UNCLOS, the IMO Conventions, the regional seas conventions, IOC, FAO, UNCTAD and ILO and many others
- the roles of international and regional bodies such as the UN institutions. the EU and other major regional mechanisms governing the international oceans and the regional seas;
